

FlowMark manufactures high quality, safe, and reliable vacuum trucks, designed for long lasting use and ease of operation and maintenance.

FlowMark warrants all of its workmanship for a period of 12 months from date of purchase by the customer, as indicated by the invoice purchase date. This warranty is non-transferable and warrants our products to be free from defects in material and workmanship, under normal use and service.

Vacuum tanks carry their own warranty, generally three to ten years. Tank warranties are administered by the tank manufacturer. Chassis warranties are administered by the manufacturer of the chassis.

This warranty does not apply to any FlowMark product which has been repaired or altered outside of FlowMark so as to affect its stability, or which has been subject to misuse, abuse, overload, negligence, lack of lubrication, or accident, or which shall have been installed or operated other than in accordance with the printed instructions of FlowMark. Normal wear and tear is not covered by this warranty.

This warranty does not obligate FlowMark to bear the cost of labor in replacing defective parts or assume liability for secondary charges or any consequential losses or damages.

FlowMark reserves the right to make improvements to any model or product without notice.

This warranty supersedes all previous warranties written or implied and becomes void upon modifications not authorized by FlowMark.
